

R.A.F. TRUCK BURNED IN TEL AVIV.

3.8.47.

Guardsmen went into the Jewish city of Tel Aviv recently to help the police keep order after a day of attacks on British vehicles and buildings. Trouble was caused when a R.A.F. armoured car became mixed up with the funeral of a procession for five Jews killed during disturbances on Thursday. In Allenby-road, crowds tried to storm the Barclay's bank building, and hoodlums overturned a R.A.F. truck, poured oil on it and set it ablaze.
